

FOR STUDENT ACTIVISTS

If you persuade your college, university or high school to purchase an educational copy of "Papers," we will give your group a FREE educational copy of the film!

This would give your group the right to hold free public screenings on your campus. (For fundraising events, you would need an additional license with us.) The best place to start is the library's acquisitions department or a professor who is willing to request that the library buy the film. Send them to our website at www.papersthemovie.com for purchase information.

To take advantage of this student offer, go to:
